# Thank You!

Dear Mike Guay,

Thank you very much for the wonderful job shadow experience. I really know what job I want to have once I am out of high school. Thank you very much for letting Tod build data terminals with us. Also thank you for bringing us to the new Wilson Tine location. Also thank you for bringing us to Ross Dutille's new house. I can now tell him I have been in his house. It was a lot of fun.

Sincerely,

Ben Marx

Dear Mike,

Thanks for post-poning your vacation one more day to see us. Bending that pipe was really cool! All those tools you guys use, along with the miles of wire, looked wicked awesome. Going to Wilson fire was fun because I got to see where all the things you explained to us were used. Plus, I saw Robbie Woodard! Your job looks like a lot of fun. I will definitely try out all the electric classes in High-School. Hope you enjoyed Costa-Rica!

Sincerely,  
Connor
